Professional Summary

Full-Stack Developer with 2+ years of experience building scalable web applications using Next.js, Node.js, PostgreSQL, MySQL, and MongoDB. Proficient in backend engineering, TSX, and state management with Zustand and Redux. Experienced in building AI agents and RAG pipelines using LangChain, LangGraph, OpenAI API, and Claude API. Worked with vector databases including Pinecone and pgvector for semantic search and retrieval-augmented generation. Skilled in networking fundamentals, regex, containerization with Docker, and orchestration using Kubernetes for deploying and managing scalable applications. Experienced with AWS EC2 and S3 for deployment and storage, Redis for caching, and cron jobs for task automation. Solved 80+ coding challenges on LeetCode and CodeChef, showcasing strong problem-solving skills..

Technical Skills

Frontend: HTML, CSS, Tailwind CSS, React.js, Next.js (TSX), Redux, Zustand, Shadcn, Regex

Backend: Node.js, Express.js, Socket.io, Redis, RESTful APIs, Kafka

AI & LLMs: LangChain, LangGraph, RAG Pipelines, OpenAI API, Claude API, AI Agents, Pinecone, pgvector

Databases: MySQL, PostgreSQL, MongoDB, Supabase, DBMS Fundamentals

DevOps & Cloud: Git, GitHub, Docker, Kubernetes, AWS EC2, AWS S3, AWS Lambda

Tools & IDE's: vsCode, Pycharm, Jupyter Notebook, Dev C++, Postman, GitHub Copilot, Claude Code

Languages: C/C++, Java, Python (NumPy, Pandas, Matplotlib, Seaborn), JavaScript, TypeScript

Foundational: Networking Fundamentals, Operating Systems, Data Structures, System Design, Figma

Problem-Solving: LeetCode and CodeChef. (80+ challenges solved)

Experience

Increditex Solutions Pvt Ltd

July 2025 – January 2026

Software Developer

Nashik, Maharashtra

- Worked on wide range of tasks including Python data analysis, automation scripts, and full-stack development using JavaScript/TypeScript, Node.js, React/Next.js, and multiple databases.
- Delivered customized client solutions with focus on scalability, performance optimization, and integration of third-party services.

Bluepen Assignment Pvt. Ltd.

May 2024 – July 2025

Full-Stack Developer

Mumbai, Maharashtra

- Developed and optimized writefy.com, bluepen.co.in, and greenguide.co.in using Next.js (TSX), Node.js, PostgreSQL, MySQL, MongoDB, and AWS EC2/S3, improving load times by 25%.
- Engineered scalable backend systems with Node.js, Express.js, Redis caching, RESTful APIs, Zustand state management, and cron jobs for automation.

- Built AI-powered features using LangChain, OpenAI API, and Claude API; developed RAG pipelines with Pinecone and pgvector for semantic search and context-aware responses.
- Optimized database queries and applied networking fundamentals + regex for connectivity and data validation.

Getfly Technologies Pvt. Ltd.

June 2023 – Aug 2023

Web Developer Intern

Mumbai, Maharashtra

- Contributed to website design, development, and debugging while collaborating with the development team on live client projects.

Projects

Classly | *Next.js (TSX), Node.js, PostgreSQL, LangChain, RAG, pgvector, Tailwind CSS, Supabase* | [Live](#)

- Built a comprehensive tuition class management system with five-role authentication: Super Admin, Admin, Teacher, Student, and Parent, each with dedicated dashboards and access controls.
- Implemented modules for attendance tracking, fee management, student progress reports, teacher management, and parent communication – fully digitizing tuition center operations.
- Engineered a RAG-based AI agent with full context of the web app; agent has view access to the database and can fetch student details scoped strictly to the authenticated class admin's students.
- Student demo login: username bunnr / password 12345678 at [classsly.in](#).

Trade Vault | *Next.js (TSX), Tailwind CSS, Supabase, Recharts, Redux* | [Live](#) | [GitHub](#) 2024

- Developed trade tracking app using Upstox API to simulate brokerage operations, Next.js (TSX) + Supabase backend, and Recharts for visual performance analysis.
- Built and published developer-facing REST APIs for generating historical options pricing data, enabling backtesting and quantitative analysis workflows.
- Leveraged PostgreSQL (via Supabase) and Tailwind CSS for efficient data management and responsive design.

Education

VPP College of Engineering

2020 – 2024

Bachelor of Engineering (Computer Science)

Mumbai, Maharashtra

World Quant Distance Learning Program

October 2025 – Present

MSc in Financial Engineering

Distance Learning

Leadership

National Cadet Corps (Cadet Leader)

2017 – 2019

NCC Group A Certification

Nashik, Maharashtra

- Led 40 students in Annual Training Camp at Tryambakeshwar, Nashik, coordinating parades and activities; led parades for 16 colleges on events day; served as NCC group head for 3 years.

ED-Cell (Documentation Head)

2020 – 2022

Entrepreneurship Development Cell

Mumbai, Maharashtra

- Managed documentation and event planning for entrepreneurship initiatives.

Interests

Reading Books, Business and Startups, Stock Market and Options Trading
